**Re: Request for Long-Term Confidential Treatment for Equipment Authorization
Under FCC ID No. YJM-0725**

Dear Sir or Madam:

Pursuant to Sections 0.457 and 0.459 of the Federal Communications Commission's rules (47 CFR §§ 0.457, 0.459), Harpers LLC and its affiliated companies ("Harpers") hereby request that the application for equipment authorization under FCC ID No. YJM-0725 and the exhibits listed below be withheld from public disclosure indefinitely:

- Schematics;
- Block Diagram; and
- Operational Description (collectively, "Confidential Materials").

Harpers requests confidential treatment indefinitely for equipment authorization under FCC ID No. YJM-0725. Confidential Materials identified above have been separated from the non-confidential portions of the application, and they contain highly confidential and proprietary information, including circuit diagrams and other key product and technical details normally kept confidential by Harpers. Such information is used in designing and manufacturing radio communications equipment used by consumers in commercial mobile radio services equipment. This is a highly competitive field. Competitors would: (i) gain unfair insight into Harpers's product development and manufacturing processes; (ii) have an advantage that would not be available to Harpers; and (iii) profit from the work of Harpers's R&D efforts. Harpers keeps the Confidential Materials confidential and has only disclosed such information to those required to maintain its confidentiality. Harpers has not publicly disclosed the Confidential Materials.

Harpers is seeking indefinite confidential treatment because the Confidential Materials are not customarily disclosed to the public even after commercial release of the product. The disclosure of the Confidential Materials, including design and technical information, will give competitors insight into Harpers's proprietary processes and techniques. Therefore, it is important that the

Confidential Materials not be made available to unauthorized persons so as not to provide such persons an unfair market advantage.

Respectfully,

Stephen Facciolo

President
